

## ABOUT NEW FARMER ACADEMY

The Knox County Tennessee New Farmer Academy is a 6-month certificate program designed for those interested in becoming agricultural entrepreneurs. Ideal candidates for this program include those who are new to agriculture, those who wish to transition into agriculture from another field, such as military service or private sector work, or those who are looking for a post-retirement opportunity.

The program focuses on teaching concepts, providing information, and facilitating the hands-on experience and connections needed to build a solid, viable and successful agricultural business. Our goal is to provide research-based information paired with time-honored practices and real-world examples to introduce you to Agriculture in Central Tennessee. The Tennessee New Farmer Academy is a TEAP approved program. Credit is given for certificates issued after 2018.
