**Background Information**

The ongoing review and evaluation of Tennessee State University's academic programs and academic units is a critical component for the institution to maintain regional and specialized accreditation. Academic programs that are mission-oriented, market-driven for student recruitment and workforce development, and cost conscious are essential indicators in program evaluation and productivity. It is critical that the University communicates on an ongoing basis the performance of its academic program inventory.

At the request of the Board of Trustees, a succinct summary of the two agenda items (1) Approval of Academic Affairs Low Producing Program Closure (Sunset) and (2) Approval of Academic Program Modifications, both of which were presented at the June 13, 2025, Student and Academic Affairs Committee meeting, are presented in this agenda item.
