## PLANNING OVERVIEW

Founded in 1912, Tennessee State University is Nashville’s only public University and is a premier, historically black University and land-grant institution. Currently, the University consists of eight (8) academic colleges and schools. Through its eight colleges and schools, TSU offers two associate degrees, 40 bachelor’s degrees, 24 master’s degrees, one educational specialist, and seven doctoral degrees. The University is a comprehensive research-intensive institution with an R-2 Carnegie classification. It has a graduate school on its downtown Avon Williams Center, along with the Otis Floyd Nursery Research Center in McMinnville, Tennessee. With a commitment to excellence, the University provides students with a quality education in a nurturing and innovative environment that prepares them as alumni to be global leaders in every facet of society. In the University’s second century of academic excellence and service, President Glenda Baskin Glover has challenged the university community to craft a plan that articulates its commitment to providing a world-class education. Continuing to provide access to a high quality and affordable education will rest in its ability to redefine and leverage the HBCU land grant legacy.

Between November 2019 to July 2020, committees conducted institution analysis of strengths, weaknesses, opportunities, and threats (SWOT) using supporting data to frame priorities. The entire campus community was engaged in providing feedback at several stages. Based on this effort, the mission, vision, and core values were revised, and five strategic goals were identified. This bold and transformative plan, “The Pathway to Excellence 2025,” defines and addresses the challenges and opportunities facing higher education. Through its focus on student success, academic excellence and world-changing impact stand to position TSU for decades. After completion of the University’s plan, academic Colleges and Administrative units will develop integrated plans that are mapped to the institution’s priorities and scorecard.

## STRATEGIC ENVIRONMENTAL SCAN

The University conducted internal and external environmental scans guided by the renewed vision, mission, and core values to ensure activities define the critical factors facing higher education. A comprehensive analysis of relevant data and trends helps to ensure that strategic choices and identification of priorities based on facts and current information. The primary purpose of environmental scanning using the integrated Strengths, Weaknesses (Challenges), Opportunities, Threats (SWOT) analysis was to determine the future direction, create goals, strategies, key action steps; and metrics to improve organizational effectiveness; connectivity to strategic partners; and establish the assessment framework to evaluate the effectiveness of the University to ensure the fiduciary, strategic planning. Leadership responsibilities are managed at the highest levels.

The University used an ongoing integrated research-based strategic planning method to improve academic programs, student learning outcomes, and infrastructure to achieve long-term goals. The SWOT analysis provided the assessment framework to evaluate the effectiveness of the University to ensure that fiduciary, strategic planning, and leadership responsibilities and managed at the highest levels. Internal and external sub-committees identified factors that influenced the functioning of the University and provided useful information in the strategic planning process. The sub-committees focused on the future within the context of internal and external environments that continuously change and the landscape of the University's community. The SWOT engagement process:

<p><b>Strengths (S):</b> Using analysis and institutional data to identify factors that set the University apart from our peers. What are the University’s internal strengths?</p> <ul style="list-style-type: none"> <li>• The University possesses three key niche classifications, all of which produce valuable funding opportunities and distinguishes the institution from other state institutions: Land-grant, HBCU, and R2 Carnegie Classification</li> <li>• TSU is in the state’s capital city with proximity to state leaders representing the legislative and executive branches of government, as well as access to corporate business leaders</li> <li>• TSU is located within approximately 250 miles of major cities with key student recruitment audiences</li> <li>• Affordable compared to peer institutions</li> <li>• Alumni affinity is 84%</li> </ul>	<p><b>Weaknesses (W) (Challenges):</b> Using analysis and institutional knowledge to identify factors that must be improved to become effective/ What are the University’s internal weaknesses?</p> <ul style="list-style-type: none"> <li>• A downward enrollment trend over the last four years, attributable to several factors</li> <li>• Inadequate financial aid/scholarship support for need and merit-based students</li> <li>• Deficient in the evolution of technological infrastructure and online educational offerings</li> <li>• The aging infrastructure presents a challenge in attracting students, faculty, and strategic partnerships</li> </ul>
<p><b>Opportunities (O):</b> What are the external factors that can enable the University to achieve desired outcomes? What are the internal and external opportunities that might move the University closer to its vision?</p> <ul style="list-style-type: none"> <li>• Improve TSU’s standing in the community and visibility through activities and other engagements with corporate, legislative and metro council stakeholders and the strengthening of relationships with the entities</li> <li>• Enhance online academic opportunities through dual enrollment and diversified delivery of academic programs</li> <li>• Develop relationships with corporations entering the middle Tennessee/Nashville community to increase the pipeline for internships, externship and employment positions</li> <li>• Implement strategies and fundraising models that increase revenue streams to the University from external constituents (legislative, government agencies, alumni, corporations, parents)</li> <li>• Seek partnerships with the business community to enhance overall operations of the University and placement of graduates after graduation</li> </ul>	<p><b>Threats (T):</b> What are the external factors, situations, or changes that could have negative impacts?</p> <ul style="list-style-type: none"> <li>• Left behind in digital and virtual age <ul style="list-style-type: none"> <li>- Inability to enhance digital/virtual footprint may lead to decrease in enrollment</li> </ul> </li> <li>• The “new normal” associated with post-COVID-19 Pandemic: <ul style="list-style-type: none"> <li>- Economic environment leads to students taking all online courses</li> <li>- Due to unemployment and other financial circumstances, students and parents/guardians unable to fund education</li> </ul> </li> <li>• The current level of federal/state-based funding is insufficient to cover escalating educational costs</li> <li>• Online and in-person educational programs sponsored/developed by corporations will replace university educational programs</li> </ul>

## WHAT ARE THE SUPPORTING DATA (metrics and trends)?

Over five months, eight sub-committees comprised of VPs, AVPs, deans, faculty, and staff identified, interpreted, analyzed, and synthesized collected data from various sources. Data collected from academic affairs, enrollment management, student affairs, facilities management, technology services, Auxiliary services business and finance, administrative services, institutional advancement, sponsored programs, and institutional research/effectiveness provided the baseline analysis. Input and comments from the executive leadership team, deans, faculty, staff, alumni, students, employers, and external stakeholders were included and synthesized. Each team prepared, shared, and discussed reported foundational data sets and critical findings. Also, the internal and external sub-committees presented their reports summarizing SWOT findings. The completed analysis process, by the leadership team, was charged to identify priorities and themes from the work of the internal and external teams. The leadership team identified 32 priorities in the first meeting. Through a multi-voting process, the team decreased the number to 16 priorities. The sub-committee of the Leadership team, which consisted of the Provost, Director of assessment and accreditation, VP, and deans, identified the five strategic goals and strategic objectives aligned with the vision and mission of the University. These goals, strategic objectives, and targets were sent to all divisions for feedback, suggestions, recommendations.

Rigorous assessment of internal and external factors revealed new opportunities and potential threats that could prevent the University from achieving its goals. The strategic planning committee considered how this information might influence strategic choices moving forward. Finally, the strategic planning committee conducted a gap analysis to identify the amount of change required to move from the status quo to the aspirational vision. The gap analysis delineated areas in which the University can utilize for long-term success. Additionally, understanding the value in identifying the limitations of the University helped to establish better alignment regarding the critical considerations. Considering the causes of the gaps and the magnitude of change required, the committee utilized baseline and peer analysis to structure its recommendations. The strategic table below shows activities that align with the strategic goals, objectives, and targets for the next five years. Based on the metrics identified, the table provides a quick snapshot of what the university results will look like if met each year for the next five years. It provides forecast projections based on the baseline data and the projected increase each year.

## TIMELINE

## EVALUATION

This section provides a general approach that will guide the evaluation step for assessing progress on strategic plan goals and objectives/strategic initiatives and reports evaluation findings. In the Evaluate step, evaluation questions are developed to inform the soundness of the strategic plan, monitor progress of meeting established goals, and measure the effectiveness of improved processes. The products of the Evaluation step include identified strategies, assessment methods, performance metrics, results, status, and budgets. Further, evaluation findings, summaries of how the strategic plan is progressing, descriptions of changes to programs or activities based on evaluation findings should also be provided.

### Strategic Goals:

- Goal #1 Attract, prepare, and graduate scholars to change the world
- Goal #2 Cultivate an organizational climate that promotes collaboration, continuous improvement, and high performance
- Goal #3 Create a transformative educational environment that impacts Middle Tennessee and beyond
- Goal #4 Generate revenue and capacity to reinvest in strategic priorities
- Goal #5 Promote, strengthen and sustain academic excellence in teaching and learning

### Evaluation Questions:

1. Is the goal aligned with the University mission?
2. Is the goal specific, measurable, attainable, realistic, and time-bound?
3. Is the performance metric valid (quantifiable and trackable)?
4. What are the results of the performance measured?
5. What is the status of progress – significant, minimal, no progress, no longer a goal?
6. If the goal was not met, what is the plan of action?

During the semi-annual review, answers to the evaluation questions are to be placed in the final column of the template below labeled “Evaluation Findings.” The evaluation process will occur during the semi-annual review, which is embedded in a self-sustaining planning process.
