Comments:

- The instructor taught very well but it would have helped even more if she would have allowed us to use the computer as she taught us the proper way to logon to the certain sites

- The presentation was very helpful. It gave me a better understanding of some of the resources that I didn't know were available to me. I am looking forward to using some of the resources that are now available to me
- Was very helpful in learning how to use the library's databases
- Thank you greatly for the time since I am an off-campus student. This will allow me to do a lot of work from home so I am able to be with my family. Very useful and well explained information
- This was very helpful
- Thank you
- The library orientation class is very helpful and will help me research better in my upper class years
- The information given could have been explained a little better and clearer. I was still left confused about some things. But overall, it was a very good and useful presentation
- I think that the instructor should find a way to make the course more interesting to keep our attention on what he or she is talking about.
- I felt that this presentation was very helpful. I learned a great amount of things in decent amount of time.
- I felt it was very influential and important that we learned these things now [rather] than wait until later [where we would be] confused. All I can say is thank you.
- I think that these library orientations should get the students more involved because just listening to someone talk for an amount of time can be very boring
- The temperature of the room was fairly chilly
- Would you please help me with my major? I am trying to become a performing arts teacher and I need some help
- I think that this was an outstanding program. Thanks so much
