## ***Tennessee Art League***

An artist's tools create messages for multiple layers of our mine. Overt and covert discoveries link viewers with their selected pieces of art. It is only after connections have been made that any work can be considered art. From its beginning in 1954 the TAL has welcomed Tennessee artists who considered exhibiting their work an essential aspect of being an artist.

As one of the few 501 c3 non-profit organizations in Middle Tennessee, TAL also provides exhibit space for artists who are disadvantaged in their ability to create art.
