Courses

The *Courses* table provides a list of the student's classes. By default, it shows the current term by date, but using the Term filter, users can see any course the student has been enrolled in.

For each class, the associated professors and meeting times/location are listed. If available, the student's mid-term grade, final grade, and absence record is shown. The mid-term and final grades are based on the data stored in the institution's Student Information System (SIS). The absence record shows two numbers: the student's total number of absences before the parentheses and the student's number of unexcused absences within the parentheses. It is based on attendance information submitted directly in Navigate360. Depending on permissions, staff and faculty can take actions such as contacting the student's professors or submitting a progress report for a specific course.

Assignment

The **Assignments** section shows specific class assignments that faculty or staff input directly into Navigate360. Users can filter assignments by Term, Course, Type, or Status.

| Assignments Term: Fall Semester 2018 • | | | |
|---|------------|-----------------------------|---|
| COURSE 🗢 DUE DATE | ASSIGNMENT | STATUS | ACTIONS |
| PHIL-6050-B1 11/30/2018 | Example | Incomplete 5.0 available | Edit Assignment Update Status Delete Assignment |

Each assignment shows the associated class and due date, as well as the student's completion status. Depending on permissions, faculty and staff can edit the student's assignments and completion status directly in this section.

Term Details

The **Term Details** section shows an unofficial transcript for the student, listing the courses for each term in reverse chronological order. For each course, the attempted/completed credits are shown, as well as the student's final grade. For each term, the **Term at a Glance** section shows the student's overall performance during the given term, including total completed credits for the term, total credit completion ratio for the term, total term GPA, total Cumulative GPA, and Academic Standing for the term. If the student has any articulated transfer coursework, this information will also show on the student's Term Details section. When available, the student's pre-enrollment credits are listed at the bottom of the Term Details section.
